

Personal Statement

I taught myself how to build my own environmental website (goodgreenvibes.org) after noticing the poor design of many existing environmental sites. From that project, I continued to learn more about the technology behind great websites and have been taking online web development courses. I want to help all the websites I work on be great.

Skills

Languages: JavaScript, HTML 5, CSS.

Frameworks: jQuery, Bootstrap, GitHub.

Software: Photoshop, Dreamweaver, Komodo Edit 8, WordPress.

Abilities: web site optimization, responsive design.

Projects

GoodGreenVibes.org

February 2014 – Present

- Developed and designed a content-rich web site to promote powerful, complex ideas about protecting the environment.
- Collaborated with a web designer to design layout, UI, and graphics.
- Created the website with Adobe Dreamweaver and WordPress.
- Implemented a responsive design with Bootstrap.
- Created helpful sharable graphics with Adobe Photoshop. Non-profits shared these graphics through their social media networks.

May 2015

Website Optimization

- Optimized an online portfolio so that the html file had a Google PageSpeed score of 90 and the JavaScript file had a rate of 60 fps.

April 2015

Interactive Arcade Game

- Used object-oriented JavaScript to create an interactive frogger game.

February 2014

Tic –Tac-Toe Game

- Created a Tic-Tac-Toe game using HTML, CSS, and JavaScript.

Work Experience

WordPress Developer

KenCast, Inc., Norwalk, CT

September 2014 – Present

- Expanded content within the company's WordPress web site, including adding pages and images.

August 2013 – Present

Communications Director and Social Media Manager

Safe Haven Farm Sanctuary, Poughquag, NY

- Increased number of Facebook followers from 300 to more than 800 through original posts and constant engagement with social media.
- Improved number of attendees at fundraising events by 60%.
- Designed and implemented fundraising campaign that compared to previous fundraising efforts tripled donations.

June 2013 – Present

Customer-facing Library Clerk

East Fishkill Community Library, East Fishkill, NY

- Provided efficient and accurate service to library patrons using computer systems.
- Helped patrons with computer issues as the library's go-to technical support individual.

Education

Udacity; Front-End Web Developer Nanodegree; March 2015-Present [University of Vermont](#); Bachelor of Arts with Honors in Environment Studies; May 2013
